- AG2R LA MONDIALE has launched issuance of « Certificats Mutualistes » in October 2016, which is a new unrestricted Tier 1 capital instrument. A first target is to issue one hundred million euros of additional capital by 2017.
- The discretionary benefits rates on saving and pension contracts have been adjusted to increase company's margins.
- Business mix will also be adapted to limit guarantees requiring a high level of capital.
- Regarding the protection business, AG2R LA MONDIALE will continue to reduce the loss ratios to strengthen its margins.
- Additional capacity for hybrid capital recognition.
- Asset allocation could also be reviewed, if needed, to reduce the capital requirement.
- On the pension business, a new opportunity : creation of a French Pension Scheme (FRPS). AG2R LA MONDIALE and especially ARIAL CNP ASSURANCES could take advantage of this new regulatory framework in the first half of 2018. A positive impact of minimum 30 points on the Solvency 2 ratio of SGAM AG2R LA MONDIALE is anticipated.
