

AG2R LA MONDIALE

# LA MONDIALE

## FULL YEAR 2021 EARNINGS

March 29, 2022

# Full Year 2021 Earnings - Group overview

€11.4bn Gross Written Premiums (+22% /2020)

- ✓ Strong profitable growth of the portfolio on all the business lines

€2.2bn Unit Linked Net Inflows (+54% /2020)

- ✓ Net inflows well above target and steering reserves towards Unit Linked

€273m Net Result (+19% /2020)

- ✓ Solid performance and resilient balance sheet

SGAM Solvency ratio at **218%** (+38pts /2020)  
(La Mondiale Solvency ratio at **262%** (+67pts /2020))

- ✓ Robust and comfortable Solvency position

S&P rating '**A**', **Stable outlook**

- ✓ Resilient model as emphasized by the S&P upgrade

# FY21 – Business overview

## Gross Written Premiums (€m)

## Net Inflows (€m)

- ✓ Historically high GWP level in a context of very low interest rates
- ✓ Record-breaking net inflows for UL, still under control for GA
- ✓ Strong shift from GA towards UL for in force contracts

# FY21 - Net income

**Net income up 19% from 2020, with record contribution from Savings and Pensions**

**Significant financial production taking advantage of bull markets :**

- ✓ All the production above target has been used to strengthen the balance sheet, with a maximum discount rate at 2.75%
- ✓ Representing an equivalent decrease of 9bps of the guaranteed rates
- ✓ Including all effects, the minimum guaranteed rate stands at 0.36% from an accounting point of view

**Organic capital generation of €300m (net income + mutual certificates) offset by OCI reserve**

# FY21 - Solvency

## +38pts SGAM Solvency Ratio Increase

- ✓ Positive effect of financial markets
- ✓ Positive impact of the supplementary pension contracts transformation

## “A” stable outlook - A strong recognition by S&P of the robustness of AG2RLM model

- ✓ Rating upgraded on March 25, 2021
- ✓ S&P pointed out :
  - The financial strength of the Sgam
  - Its leading market positions in France
  - Stabilization of fundamentals
  - Control of net General Account inflows
  - The continued decrease of guaranteed rates
  - The transformation of Madelin contracts (pension contracts) by end of 2021

# 2022 Outlook

## Appointment of Bruno Angles

- ✓ Joined the Group Management Committee of AG2R LA MONDIALE on May 5, 2021, as Deputy Chief Executive Officer
- ✓ Appointed Chief Executive Officer of AG2R LA MONDIALE in succession to André Renaudin on November 26, 2021. This appointment will take effect on May 1, 2022, after clearance from the relevant authority (ACPR)

## Capital management initiatives and investors' relations

- ✓ €106m of residual debts, which would have been called by 2026 due to the end of the grandfathering clause, may be called during 2022
- ✓ Transfer of subordinated debts listing to Euronext Growth in order to keep a stable financial reporting framework and financial operational excellence
- ✓ These changes would have no impact on the financial strength of the Group, nor on its debt instruments, nor on the quality and frequency of reporting to investors

## New supplementary pension framework (FRPS – “French pension funds”)

- ✓ Regulatory framework better suited to long-term commitments such as retirement has been introduced in France
- ✓ In this regulatory framework, the pillar 1 solvency requirements are not assessed under the Solvency 2 standard, but under “Solvency 1-like” rules – thus reducing the capital charge
- ✓ AG2RLM in discussion with the regulator for implementation at the end of 2022
- ✓ Positive impact on the Solvency expected as of 2022

## Operational excellence

- ✓ Decrease of the expense ratio in all business lines (retirement, savings and protection & health insurance)
- ✓ Accrued cost control
- ✓ Increase of digital and automated acts

# Ukrainian crisis

Since the beginning of the crisis, the Group has been monitoring closely the potential impacts. So far, no significant impact is to be reported

## Operational Business Continuity Plan

- ✓ Group Management Committee and key relevant functions monitor the potential consequences on the activity and the associated risks and participate to market discussions
  - Cyber threat monitoring
  - Investments monitoring to assess the impact of sanctions against Russia, increase of commodities prices and financial instability
  - Compliance monitoring related to sanctions (e.g. freezing of assets)
  - Lapses and switches are also closely checked

## Technical risk and insurance activity

- ✓ Group has **no related development or activity, neither in Russia nor in Ukraine**
- ✓ On savings and pensions, a reinforced follow-up on GA/UL switches and redemptions has been set up, without detection of significant movements or trends to date
- ✓ On protection and health insurance, no direct impact on our claims experience is currently detected

## Market risk

- ✓ The General Account investment exposure at EoY21 was extremely limited :
  - No direct investment
  - €1m of indirect investment through diversification funds
- ✓ Equity portfolio hedging partially offsets the decline in value of the portfolio
- ✓ No client came up in our portfolio when searching for individuals subject to the new US/European embargoes/sanctions

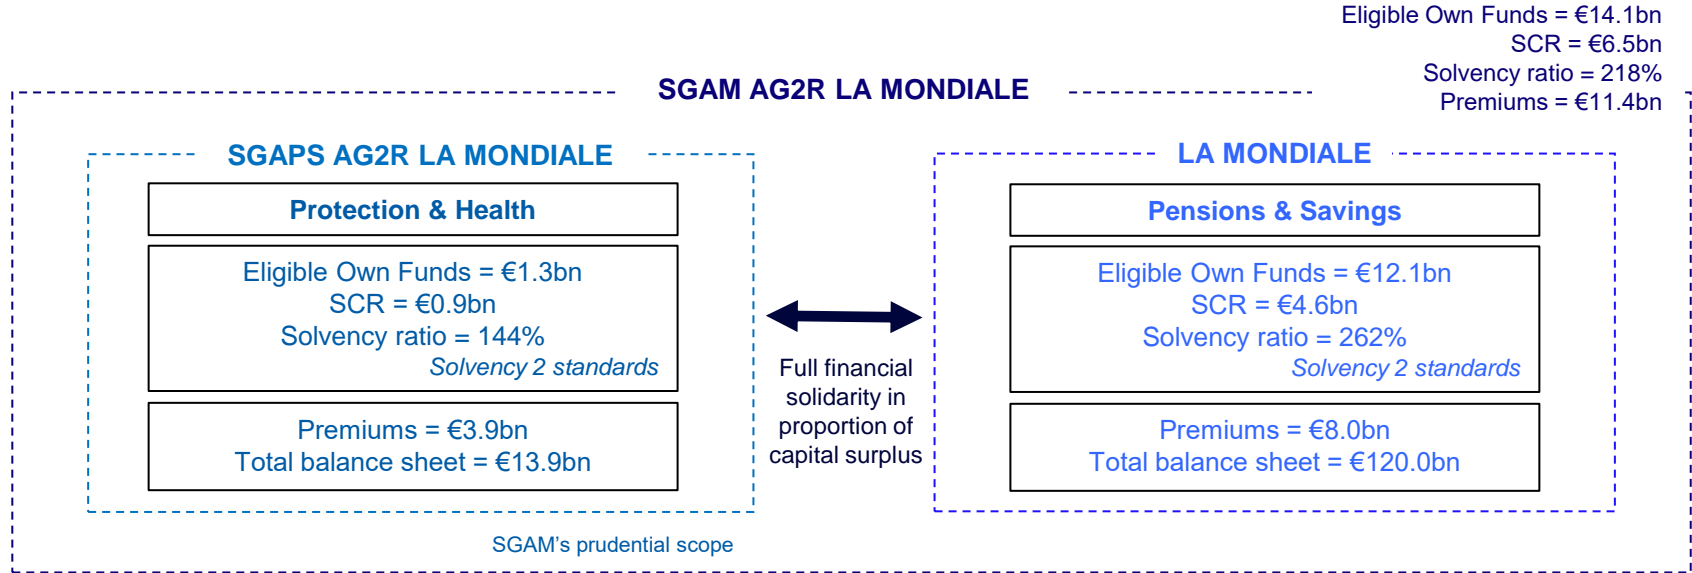

# Table of contents

- 1. Profitable growth & strong performance**
2. Prudent investment strategy
3. Robust solvency position & capital management
4. Appendix

# Group structure

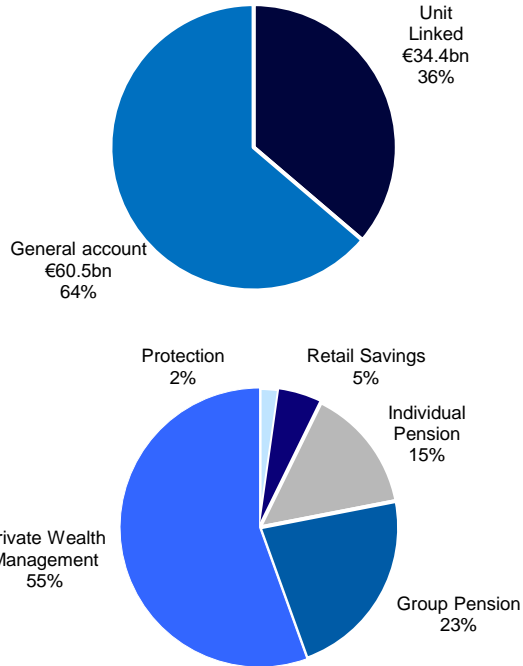

- A mutual life insurance company is a company with no shareholders, i.e. results go directly into equity
- All securities issued since 2016 have a dual trigger on both the SGAM and La Mondiale solvency ratios (see details p.31 / p.42)

# La Mondiale - Key business figures

## Technical reserves €94.9bn

**Strong performance of the key business indicators**, maintained at a strong level in line with the Group's strategy:

- **Steer and limit gross inflows on the general account**
- **Maintain a competitive market position**
- **Maximize the unit linked inflows**

36% of La Mondiale's liabilities made of UL (+4pts vs FY 2020): c.9pts above the market average

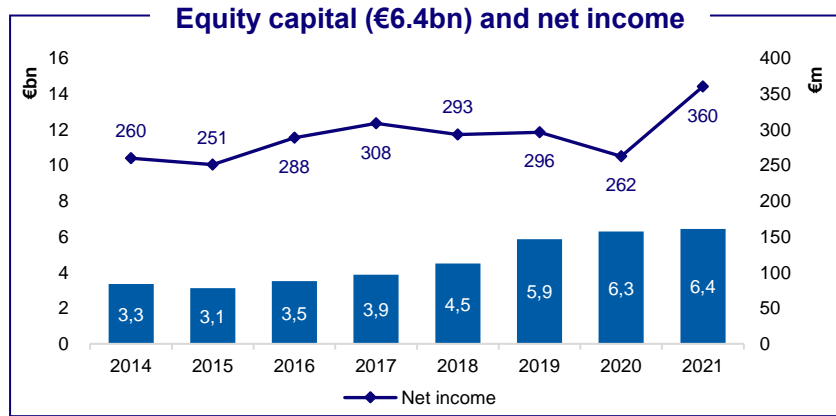

38% pensions / 60% savings: natural hedge between liabilities

## Gross Written Premiums\* (€m)

(\*) Excluding internal reinsurance

# Strong performance in line with our strategy

La Mondiale: €6.4bn of IFRS own funds (+2,3% compared to FY 2020)

- ✓ Results directly contribute to equity, hence driving growth in equity
- ✓ No dividend distribution given our mutual nature
- ✓ Strong growth in mutual certificates (+€55m) : €318m outstandings at EoY21, i.e. Tier 1 capital representing almost 5pts of solvency

# A Unit Linked rate well above the market, for both premiums and reserves

# FY 2021: negative net outflows on the GA and historical record net inflows on UL

Measures have been taken to monitor the volume in GA while keeping good momentum on UL net inflows: levels of UL net inflows are higher than ever, while GA's levels keep on decreasing

# Reduction of guarantees and strong management buffers

<b>0% before fees</b>	<b>Negative guaranteed rate on new business since November 2017</b> <ul style="list-style-type: none"><li>✓ Actual guarantee at about -80bps</li><li>✓ Buffer of 154bps (difference between fixed income investment yield and average new business guaranteed rate)</li></ul>
<b>- 5 bps</b>	<b>Continuous decrease of the average guaranteed rate</b> <ul style="list-style-type: none"><li>✓ FY 2021 average guaranteed rate on the Inforce = 0.53%</li><li>✓ Additional decreases of the average guaranteed rate : accounting decrease of 9cts (prudential reserve) and BoY22 decrease of 8cts (supplementary pension contracts transformation)</li><li>✓ Buffer of 182bps (difference between asset yield and average guaranteed rate)</li></ul>
<b>1.41%</b>	<b>Discretionary profit-sharing</b> <ul style="list-style-type: none"><li>✓ Follows the decrease of the asset yield</li></ul>
<b>€2.3bn</b>	<b>Profit-Sharing Reserve (PSR)</b> <ul style="list-style-type: none"><li>✓ Represents more than 4.1% of technical reserves</li><li>✓ Considered as hard equity by S&amp;P's</li></ul>

# Continuous reduction of guaranteed rates

Portion of liabilities with a gross guaranteed rate above 3.5% decreased from 35% in 2003 to 7% in 2021

Average guaranteed rate decreased from 0.58% in 2020 to **0.53% in 2021**

Inforce guaranteed rate lower than peers

A reinforcement of €400m and €200m had been made in 2019 and 2021 to provision annuities with a technical rate above 2.75%, corresponding to an additional impact of  
 ⇒ **-9bps** on the accounting average technical rate

Pension contracts transformation at early 2022  
 ⇒ **-8bps** on the average technical rate

⇒ Accounting average technical rate stands at **0.36% at BoY22**

	SGAM	CNP	AXA	Generali	Groupama
Inforce guaranteed rate	<b>0.53%</b>	0.13%	1.40%	1.15%	0.90%
New business guaranteed rate	<b>0%</b> before fees	0.01%	0.20%	0.06%	0.00%

# Still high buffers on savings and pensions

Market buffer (bps)	Inforce buffer	NB buffer
<b>SGAM</b>	<b>182</b>	<b>154</b>
CNP	175	79
AXA	130	120
Generali	170	144
Groupama	140	170

(\*) Savings and Pensions average guaranteed rate (1st year & 2nd year)  
 (\*\*) Savings and Pensions average guaranteed rate (after 2nd year)

# Profit-sharing reserve (PSR) : maintained above 4% of reserves

**Target: stability over 4%**

- ✓ Increase in the provision between 2020 and 2021 (€12m)
- ✓ €2.3bn PSR, representing 4.1% of total technical reserves

Profit-sharing drop by 15bps

The profit-sharing rate is still decreasing, along with the asset return rate drop.

- ✓ While keeping our PSR target above 4% of reserves

# Table of contents

1. Profitable growth & strong performance
2. **Prudent investment strategy**
3. Robust solvency position & capital management
4. Appendix

# Stable asset allocation in line with liabilities profile

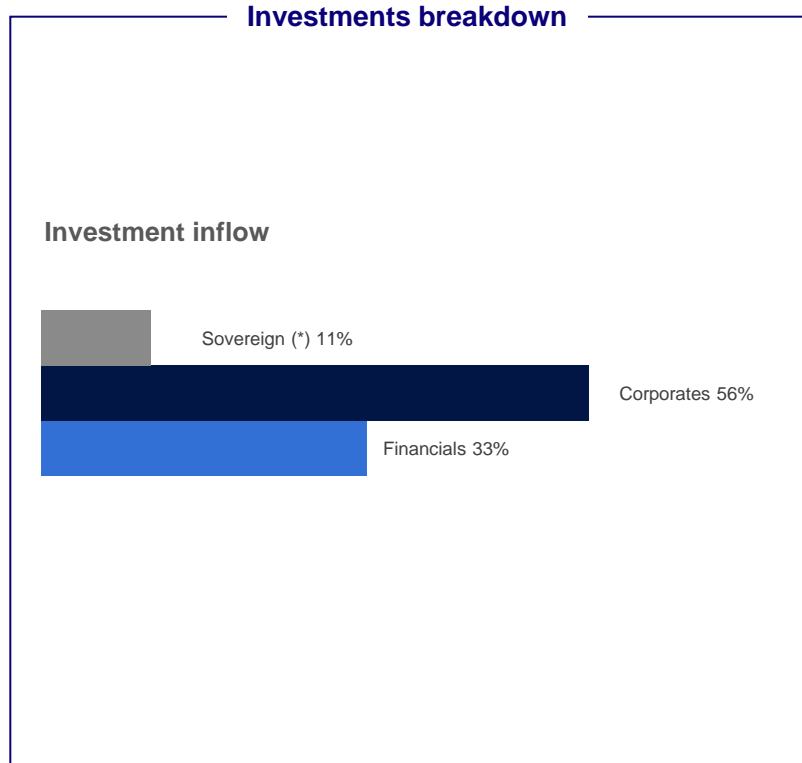

- ✓ AuM growth: +1.4%
- ✓ Risk monitoring increased in the current environment

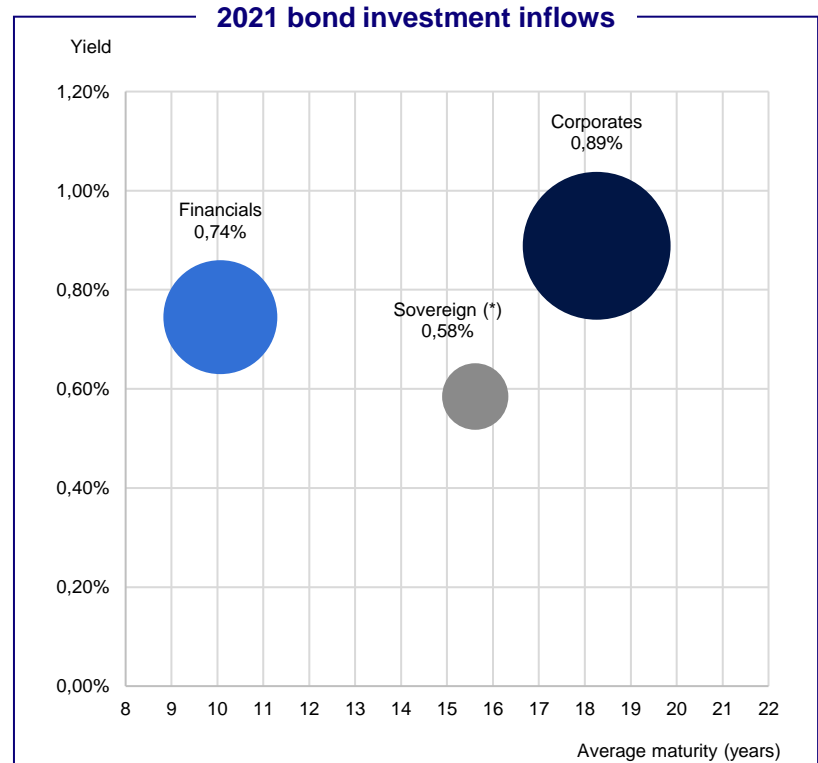

# FY 2021 fixed income cash flows

Average investment rate on new bonds portfolio: 0.86%

(\*) including Supra / Agencies  
Focus La Mondiale

Steering towards Corporates – No change in the credit policy

# Fixed income allocation

**Credit Exposure split by Credit Rating**

**Total fixed income exposure is at €65.2bn**

- Limited exposure to risky investments, 20% of the investments currently rated BBB, no high yield exposure
- No floating rate bond
- Duration / sensitivity of portfolio (7.6) in line with liabilities sensitivity, much lower than their duration (13.8) due to crediting rate policy
- Sovereign and sovereign-like exposure accounts for 39% of total fixed income exposure

**Portfolio by maturity band**

**Credit Exposure by Issuer Type**

# Fixed income allocation – Sovereign exposure

## Sovereign bond exposure

**Total Sovereign exposure is at €14.7bn**

- Sovereign exposure accounts for 26% of total fixed income exposure

## Peripheral countries exposure

**Total Sovereign exposure on Peripheral countries is at €1.9bn**

- Peripheral countries exposure represents 13% of the sovereign bucket and only 2% of overall total investments
- High level of unrealized gains (€247m) allowing credit shock absorption

# The equity hedging allows to keep active management of underlying equities portfolio

- The strike of the hedge has been lowered to 2800 points on the Eurostoxx 50 to benefit from the market rebound in a post Covid context
- In order to take advantage from the rise of interest rates, cyclical and financial stocks have been favored at the expense of defensive stocks
- The hedging strategy allowed **an 8pts gain on solvency ratio**

Equity portfolio value

# Equity allocation

**Equities exposure: €6.6bn** (including €1.6bn through mutual funds)

- FY 2021 performance at +26.1%, after +3.9% in 2020 and +23.3% in 2019
- A well diversified equity portfolio by geography and sector
- Focus on large liquid equity stocks traded on the main exchange markets
- All FX exposures are fully hedged

# Property allocation

IPD = Investment Property Databank

**Total Property exposure is at €3.7bn (fair value: €5.6bn).**

La Mondiale property assets represent 694,000 sq.m. and are mainly offices located in the center or Western Paris, i.e. only Prime Real Estate.

Solid rental market, especially on all recently delivered surfaces, prompting a good vacancy rate of c.16.1 %.

Average revenue: €461/m<sup>2</sup>

# Exceptional liquidity

## Evolution of unrealized gains and losses according to the securities sold

## French market lapse rate (23-year period)

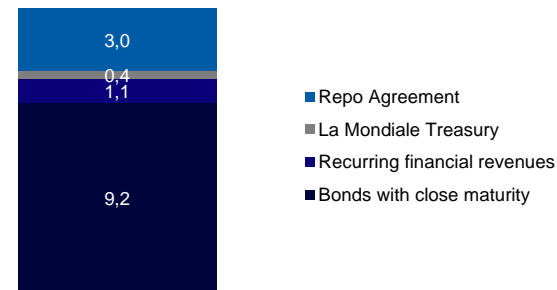

## S&P analysis

### Liquidity: Exceptional

“AG2R LM has exceptional liquidity, as it has sustained highly liquid assets, and positive net inflows. The group's pension business, which cannot be easily surrendered, is positive for its liquidity, in our view. Should any cash needs arise, we think that AG2R LM's highly marketable investment assets could provide liquidity.”

Extract of detailed analysis - October 4, 2021

## Cash buffer: €13.7bn

# A responsible investment policy of the assets managed(\*) by the Group

**20** years  
of SRI expertise

(\*) including asset management on behalf of public pension scheme

## All Portfolios:

### Responsible investment

The responsible investment strategy consists of integrating Environmental, Social and Governance (ESG) criteria into the management of all assets managed by AG2R LA MONDIALE.

#### Commitments :

- ✓ ESG criteria in asset management
- ✓ Principles and Objectives for Responsible Investment
- ✓ Signature of the **UN PRI**
- ✓ Exclusion policies for specific weapons, tobacco and coal
- ✓ Company dialogue and voting policy

#### Reports :

- ✓ Annual « *Responsible Investment Report* »

## SRI portfolios

The investment policy is particularly selective and discriminatory in managing AG2R LA MONDIALE's SRI funds, which were created in the early 2000s and now represent €10bn.

#### Commitments :

- ✓ Selection of the best issuers in each sector (over 40% of issues excluded by a best-in - class process)
- ✓ Transparency Code
- ✓ Public label for 7 SRI funds

#### Reports :

- ✓ Annual SRI report
- ✓ Annual Portfolio Disclosure, detailed votes for equity funds

# Responsible investment public commitments and key figures

## Climate policy

All assets should be aligned with Paris agreement target of 1.5 C° by 2050. Portfolio temperature is permanently monitored and progress towards the target is supported by a gradual phasing-out of investment in coal and investing in renewable energies and energy saving.

## No further investment in the tobacco industry

Portfolio investments in the tobacco industry went from €510m as of EoY2017 to €356m as of EoY2020, reducing the exposure by 17%

No purchase or holding of issuers involved in the production, marketing or storage of weapons prohibited by international conventions ratified by France (i.e., anti-personnel mines, cluster munitions, biological weapons and chemical weapons)

# Table of contents

1. Profitable growth & strong performance
2. Prudent investment strategy
- 3. Robust solvency position & capital management**
4. Appendix

# Capital management: key indicators

	Framework	FY 2020	FY 2021	
<b>Solvency ratio</b>	> 175%	180%	218%	<ul style="list-style-type: none"><li>▪ Capital surplus of €7.6bn</li><li>▪ Positive market impacts</li><li>▪ Successful individual pension transformation</li></ul>
<b>Financial leverage</b>	< 40%	33%	33%	<ul style="list-style-type: none"><li>▪ Leverage between 20%-40%</li></ul>
<b>Interest coverage</b>	> 4	4.9	4.1	<ul style="list-style-type: none"><li>▪ FY 2020 interest coverage at 3.5 including Covid-19 impact</li><li>▪ FY 2021 interest coverage in the range</li></ul>

In addition, the residual issuance capacity under Solvency 2 is still significant at €2.0bn (€1.1bn in RT1, €0.9bn in T2, including €0.5bn of T3) – Details p.33

# Solvency position

Robust and comfortable solvency at 218%, with nearly €7.6 billion in excess margin

The solvency ratio increased by 38pts between FY 2020 and FY 2021 mainly due to :

- Financial market environment (especially rising interest rates) for +35pts
- +25pts impact through the individual pension transformation
- -15pts impacts linked to expenses (inflation rise, expenses increase, ...)
- Other negative effects (Domitys integration and transitional measures amortization)

The transitional measure on technical provision represents 50pts of SGAM ratio. The measure has been agreed by the supervisor until 2032

The issuer La Mondiale solvency ratio is at 262% (see details p.42)

# Solvency position

## SGAM SCR breakdown – €6.5bn

(1) Diversification benefit = (sum of net SCR excluding Operational risk SCR - net BSCR) / sum of net SCR excluding Operational risk SCR

## SGAM Eligible Own Funds – €14.1bn

Eligible Own Funds mostly made of the hardest form of capital

# Significant financial flexibility left

(\*) euro equivalent issuance rate, after hedging  
 (\*\*) Including €106m that may be called in 2022

# Interest coverage and Leverage, as of 12/31/2021

NB : IFRS leverage doesn't take into account €146m of Super Subordinated Debts and €500m of RT1

Interest coverage and leverage indicators remain in a highly satisfying range

Liability management of the 7.07 2013 PerpNC6 in April 2019

Issuance of the 4.375 PerpNC10 (RT1) in October 2019

Issuance of the 2.125 11Y Bullet (T2) in June 2020

Issuance of the 0.75 5.5Y Bullet (T3) in October 2020

# Table of contents

1. Profitable growth & strong performance
2. Prudent investment strategy
3. Robust solvency position & capital management
4. **Appendix**
